About Me

missroofless

Nature and travel Photographer.

Finding a lot of joy in being outdoors, traveling, adventuring in sports, creating, and exploring whenever I can, which shows through my work and photographs.

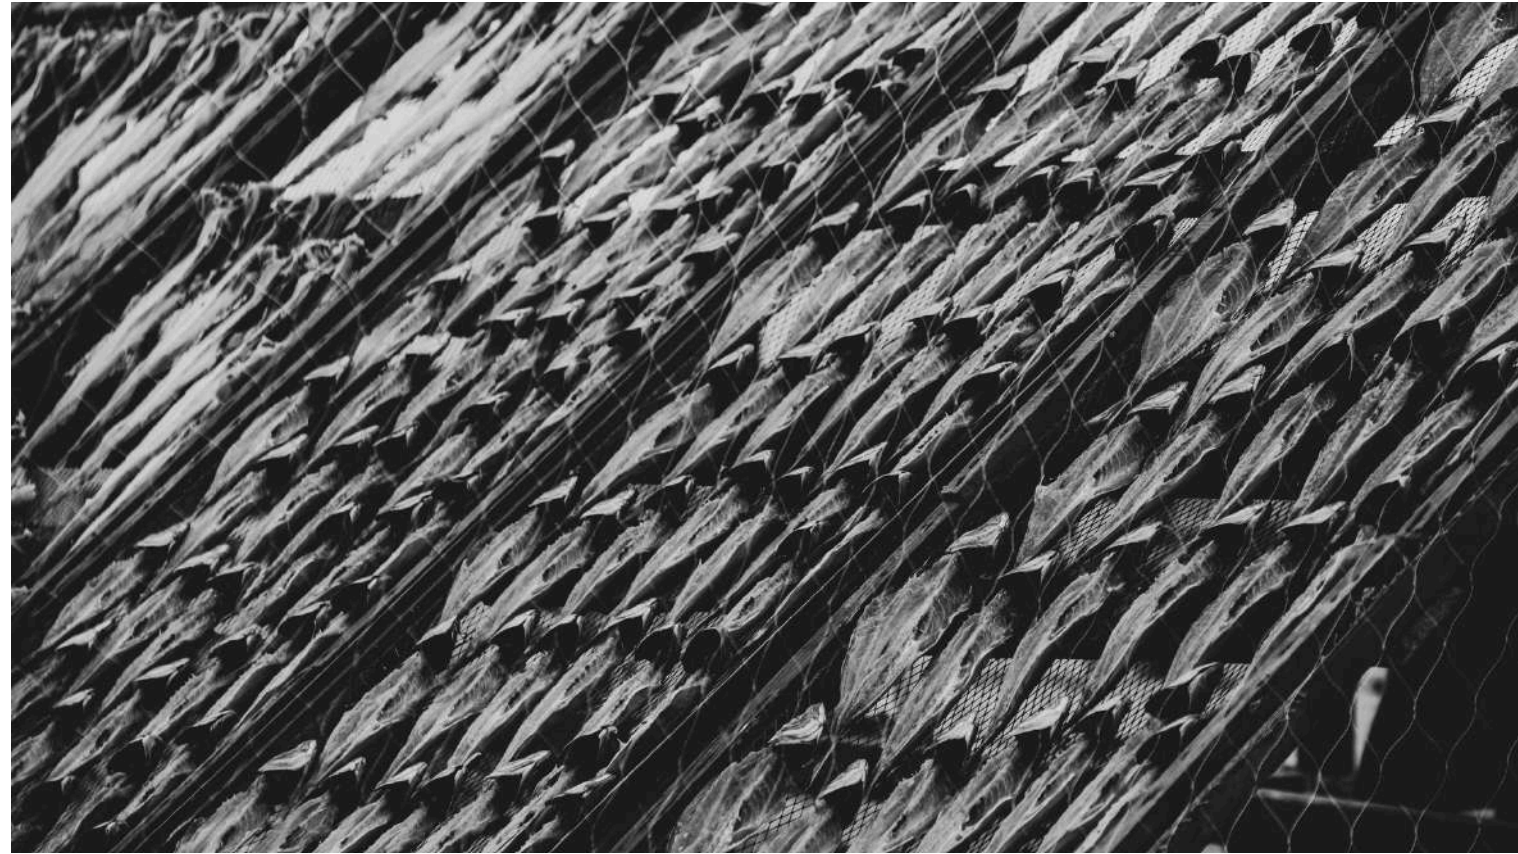

A landscape of rolling hills at dusk or dawn, with a central circular graphic containing the text "My Work". The hills are silhouetted against a sky with soft, wispy clouds. The overall color palette is muted, consisting of blues, greys, and soft oranges. The text "My Work" is centered within a dark, semi-transparent circle. There are four white L-shaped corner markers, one in each corner of the image, suggesting a frame or a design element.

My Work

Portrait

For me, photography should be natural and spontaneous, even when I'm making some portrait photoshoots the main goal is to get the real essence of it.

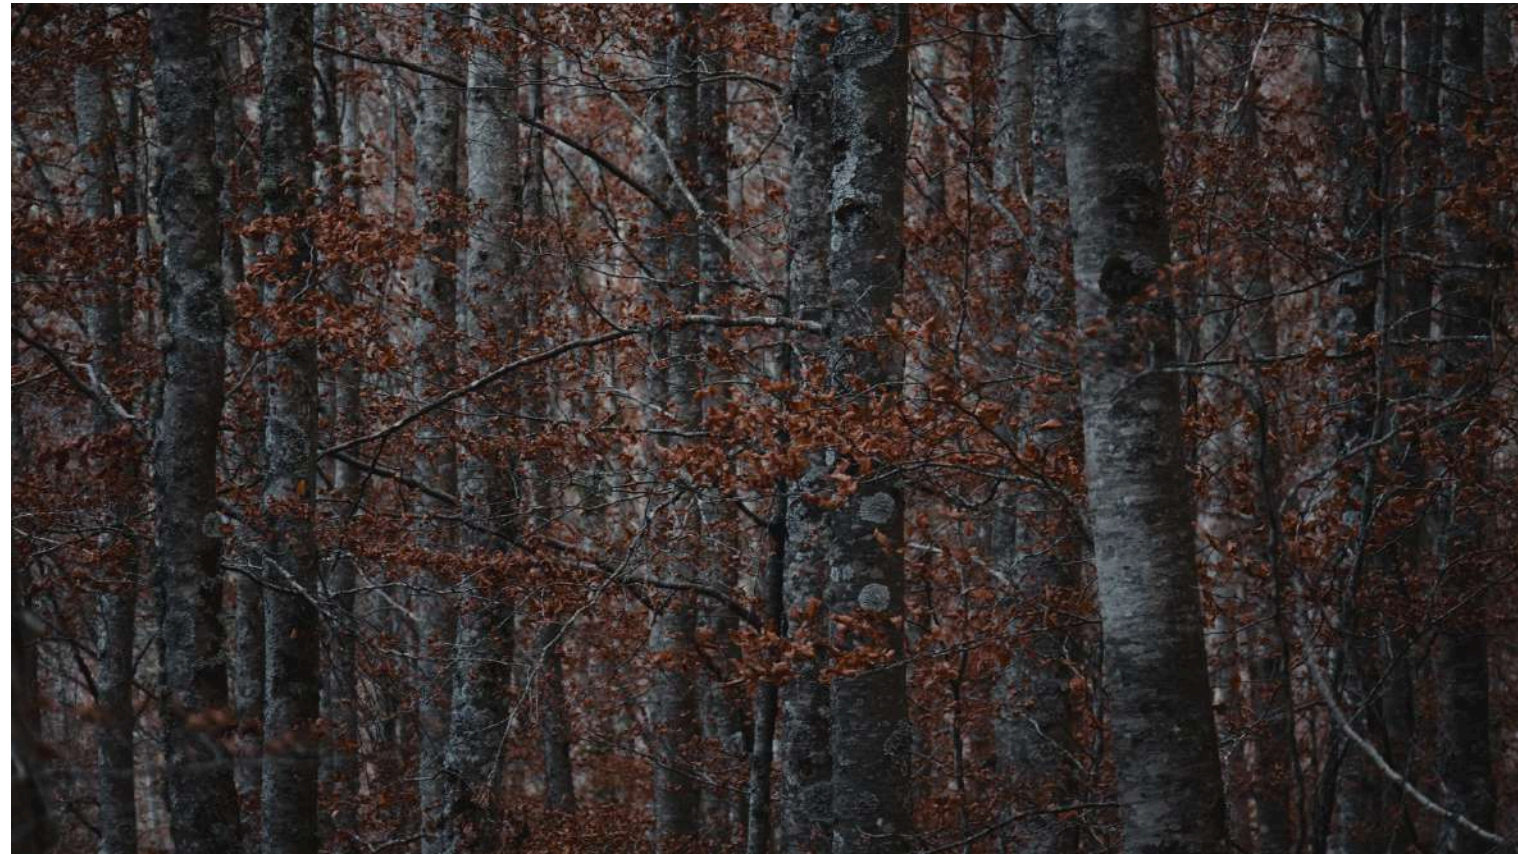

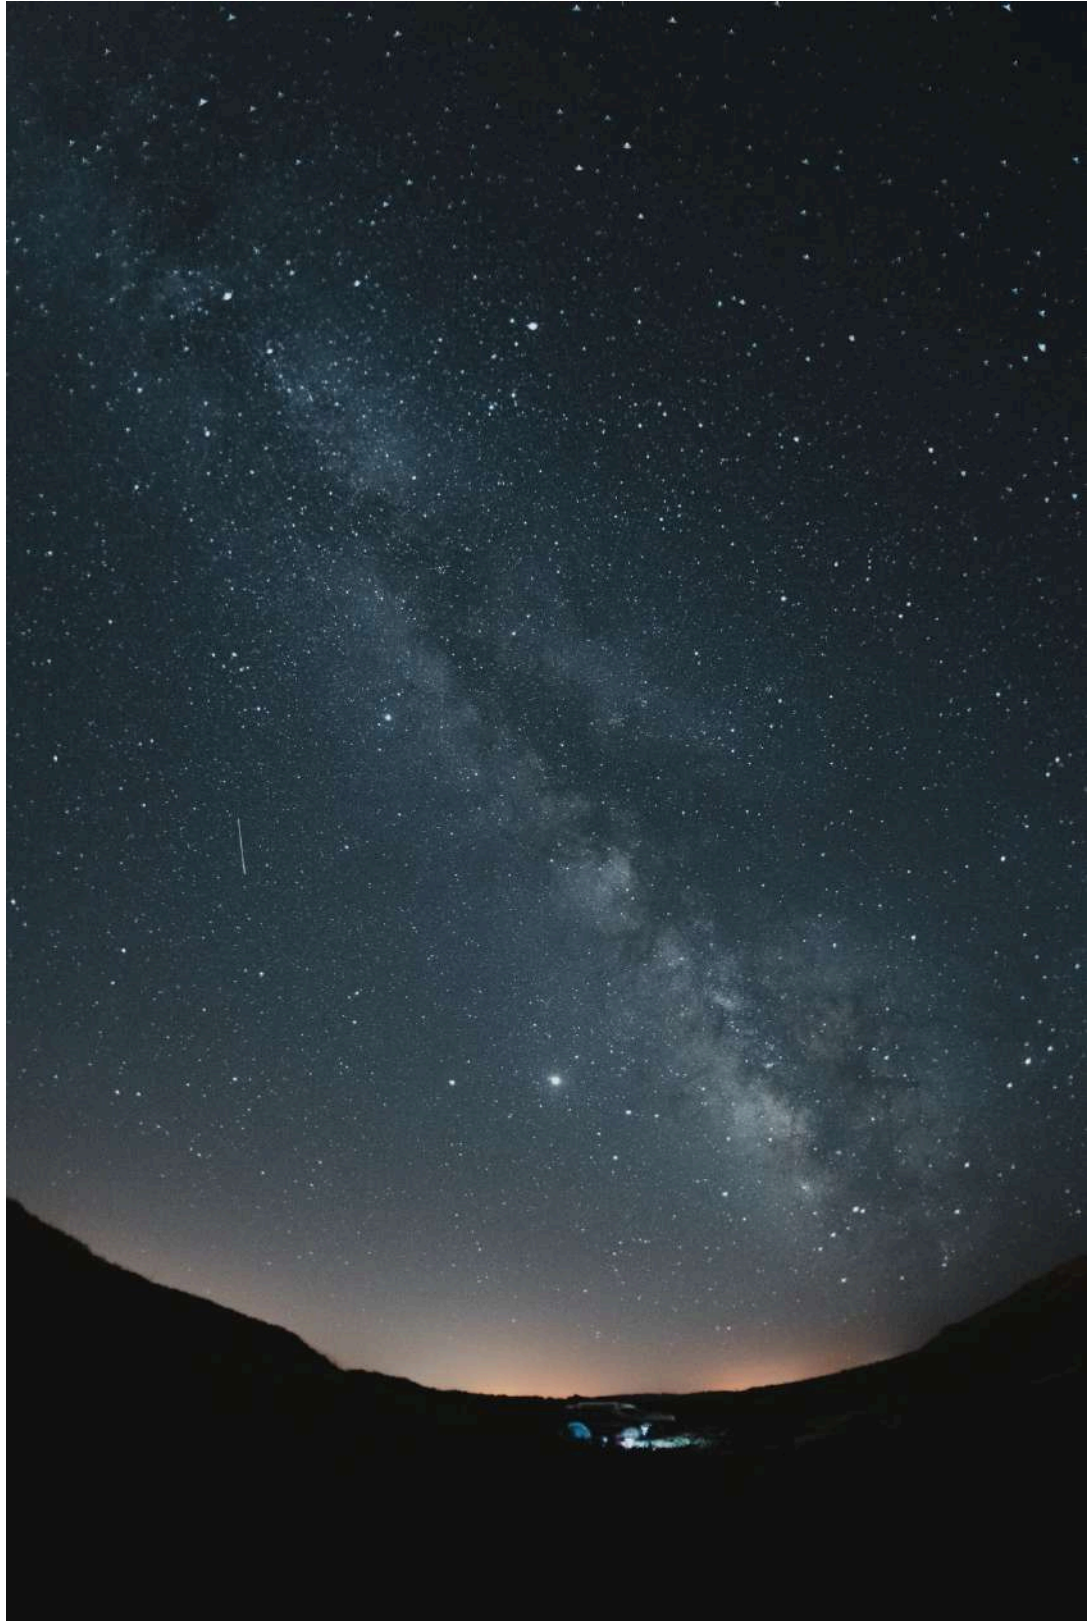

Nature

Photographing nature is for sure my comfort zone, not physically because sometimes it gets really hard to take the perfect photo, but it's where I love to be and enjoy the most.

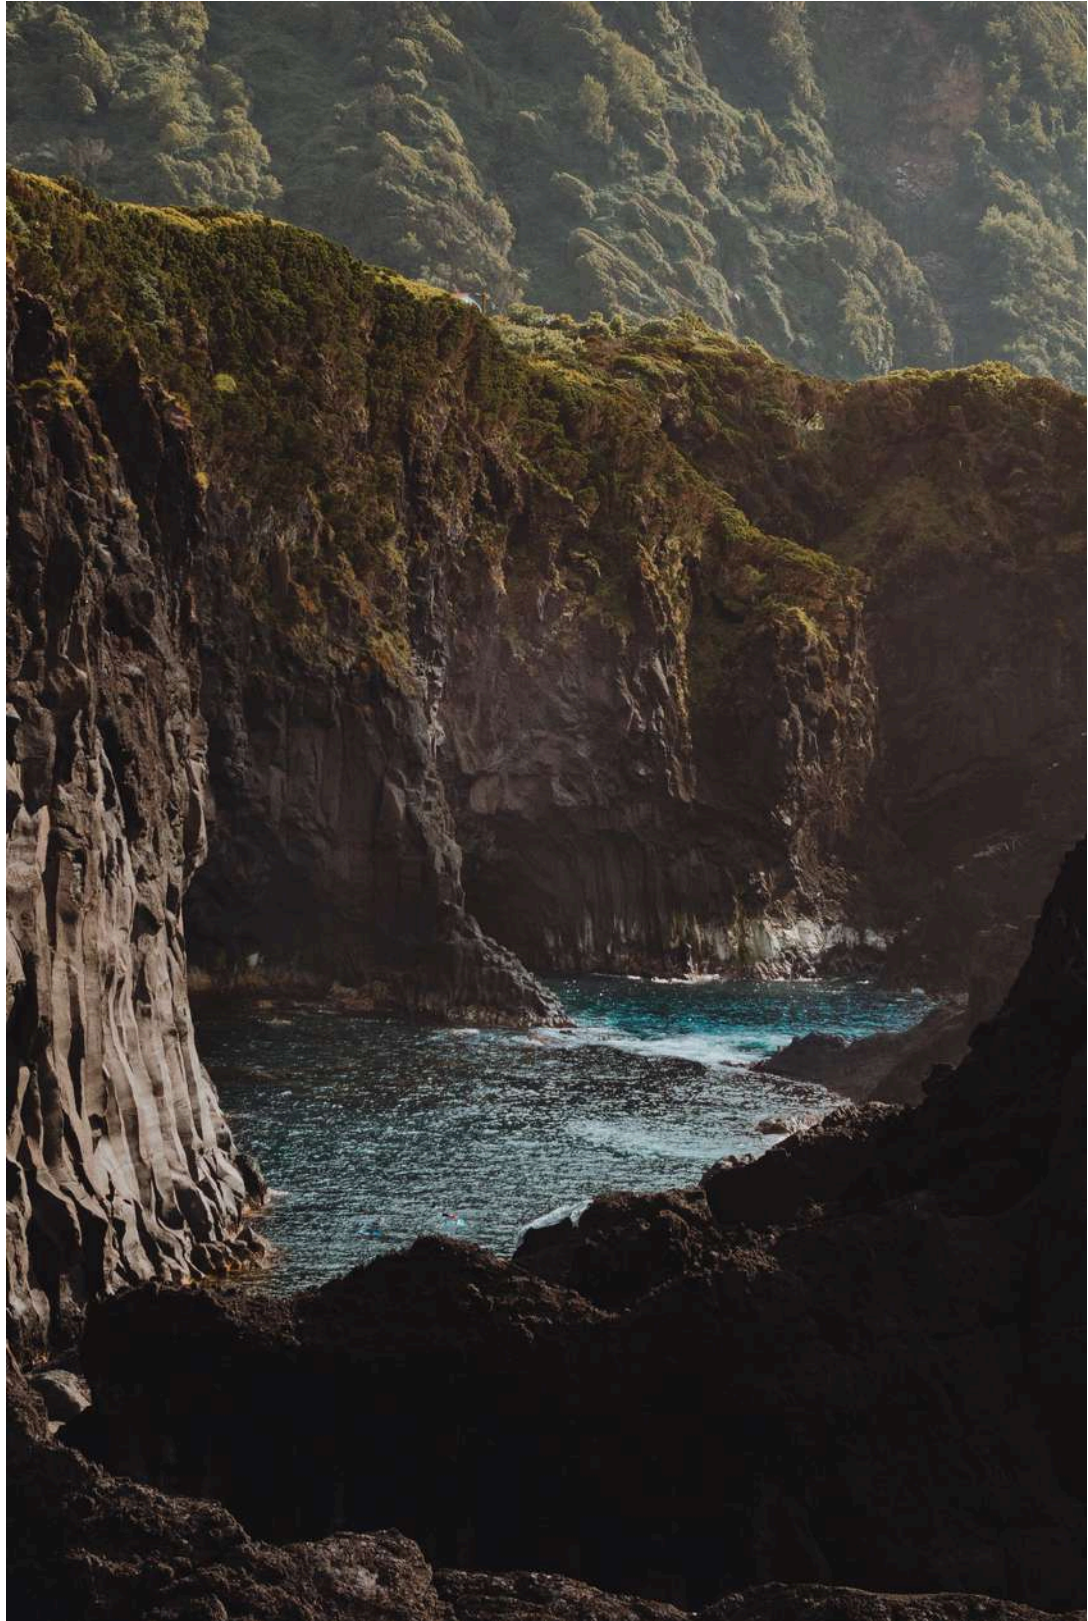

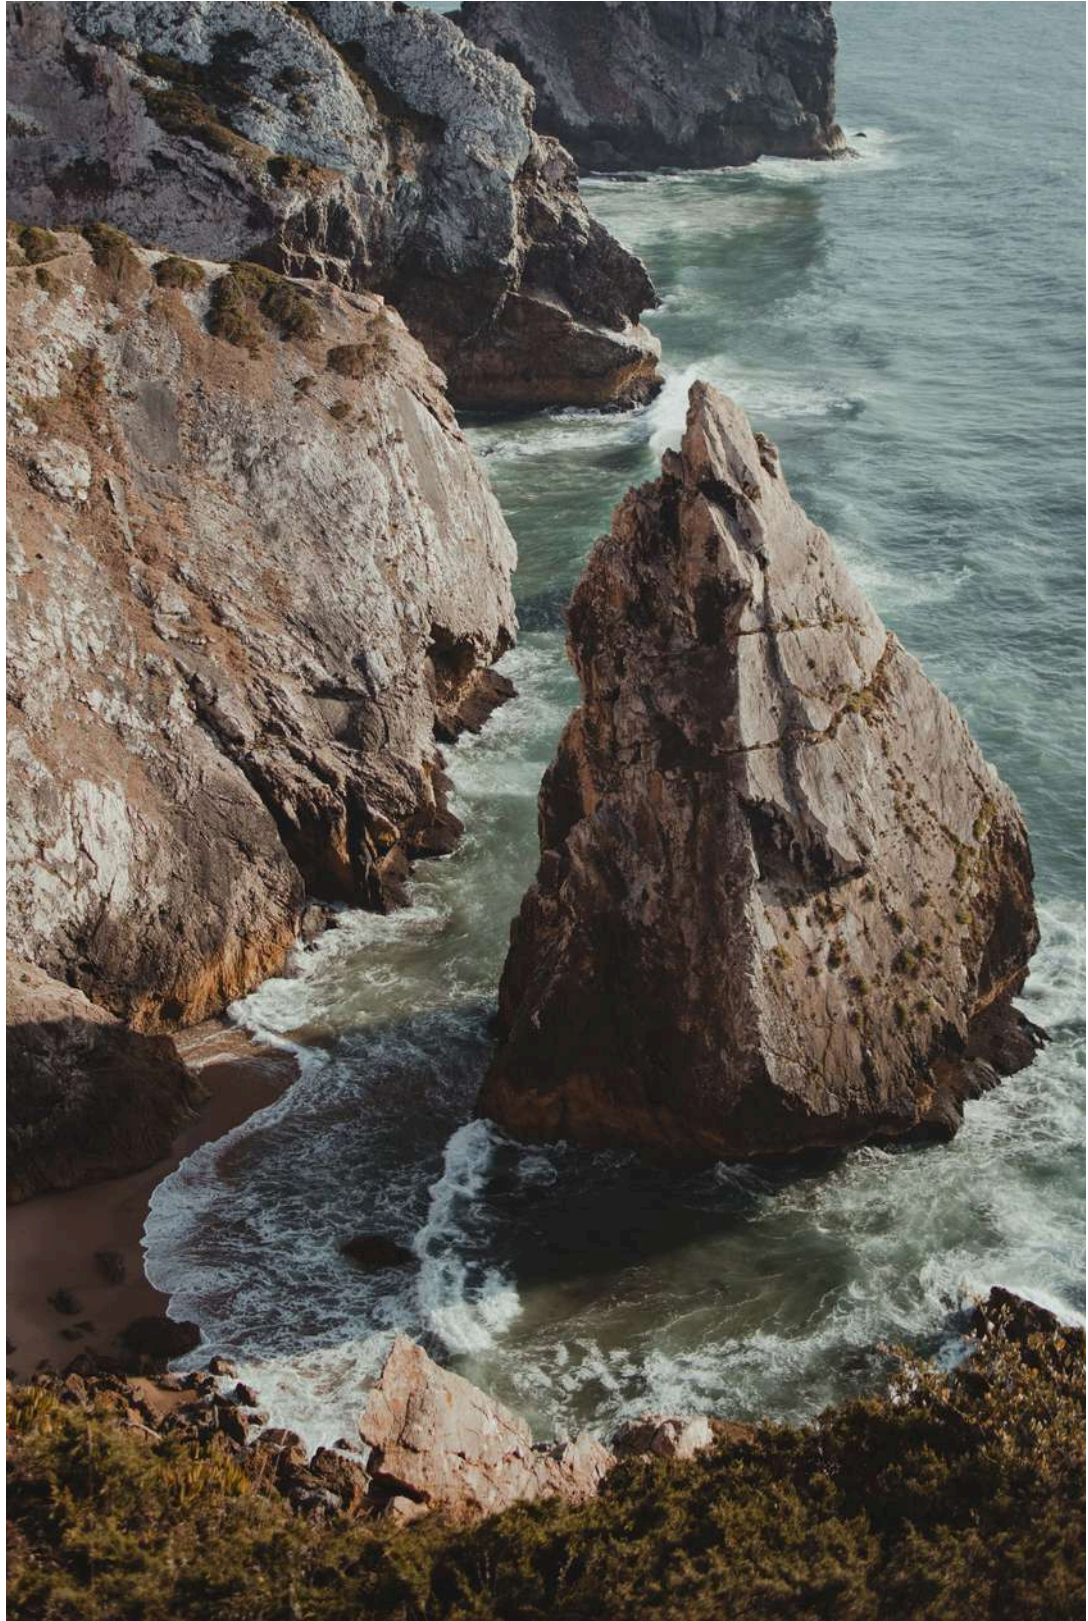

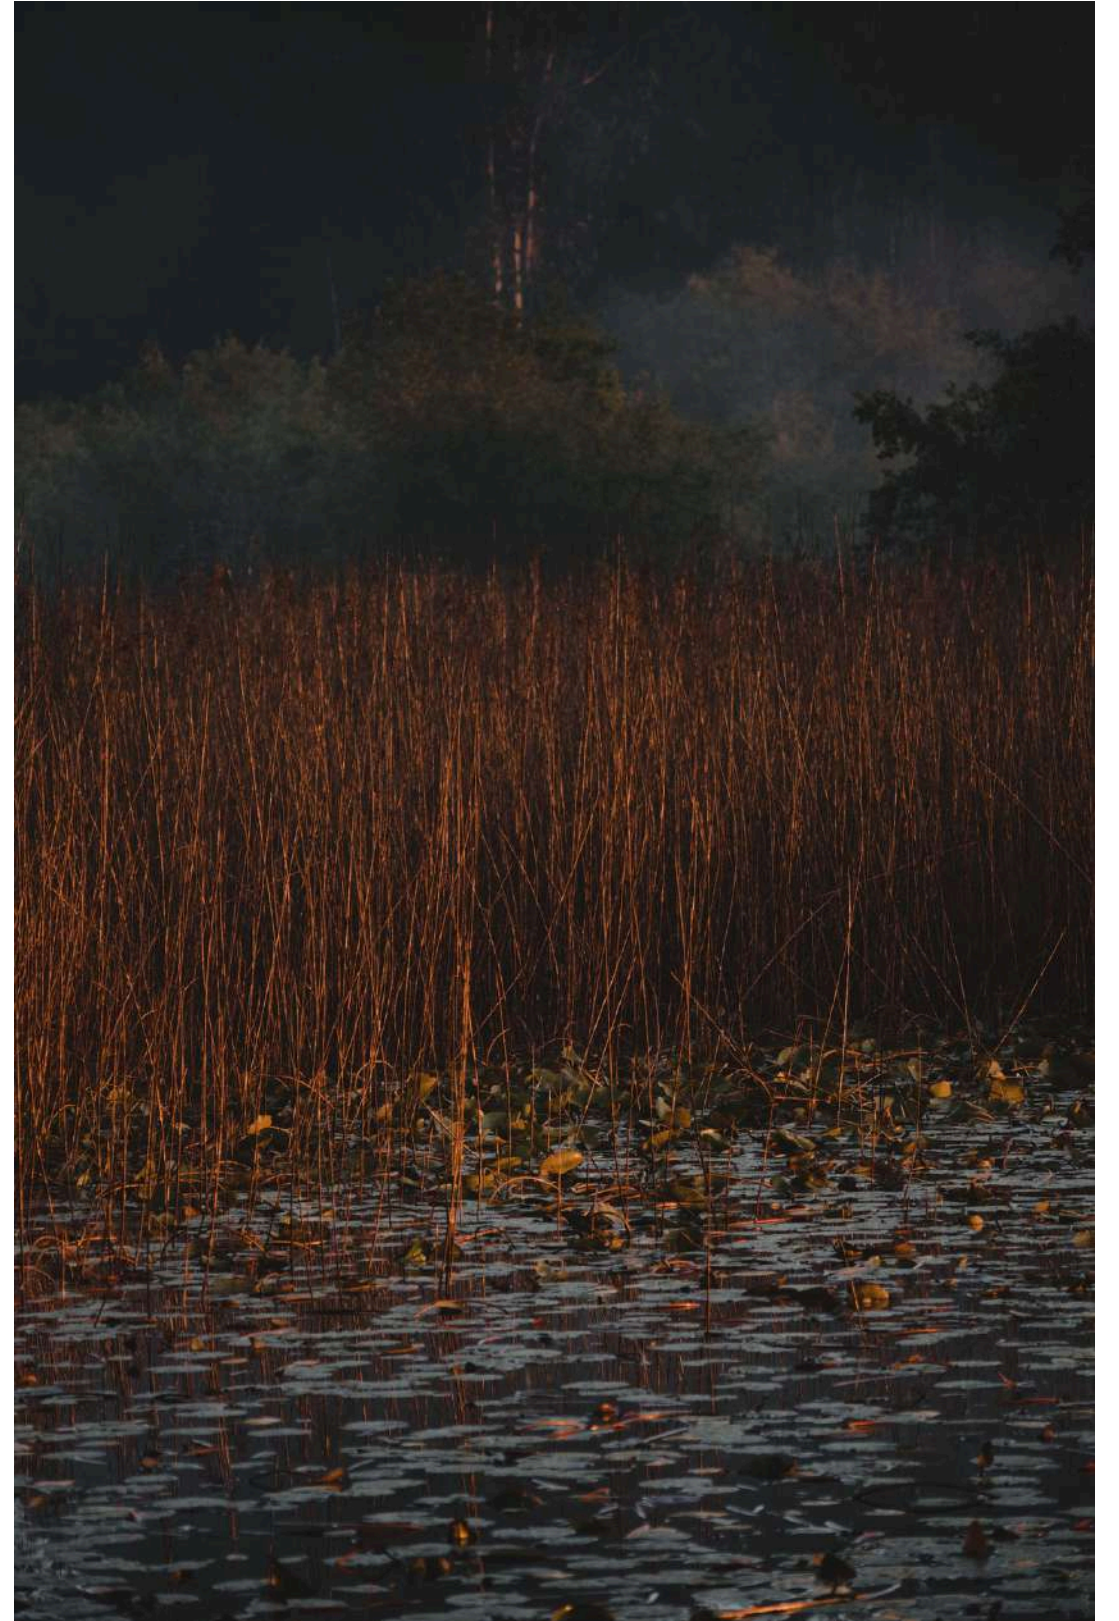

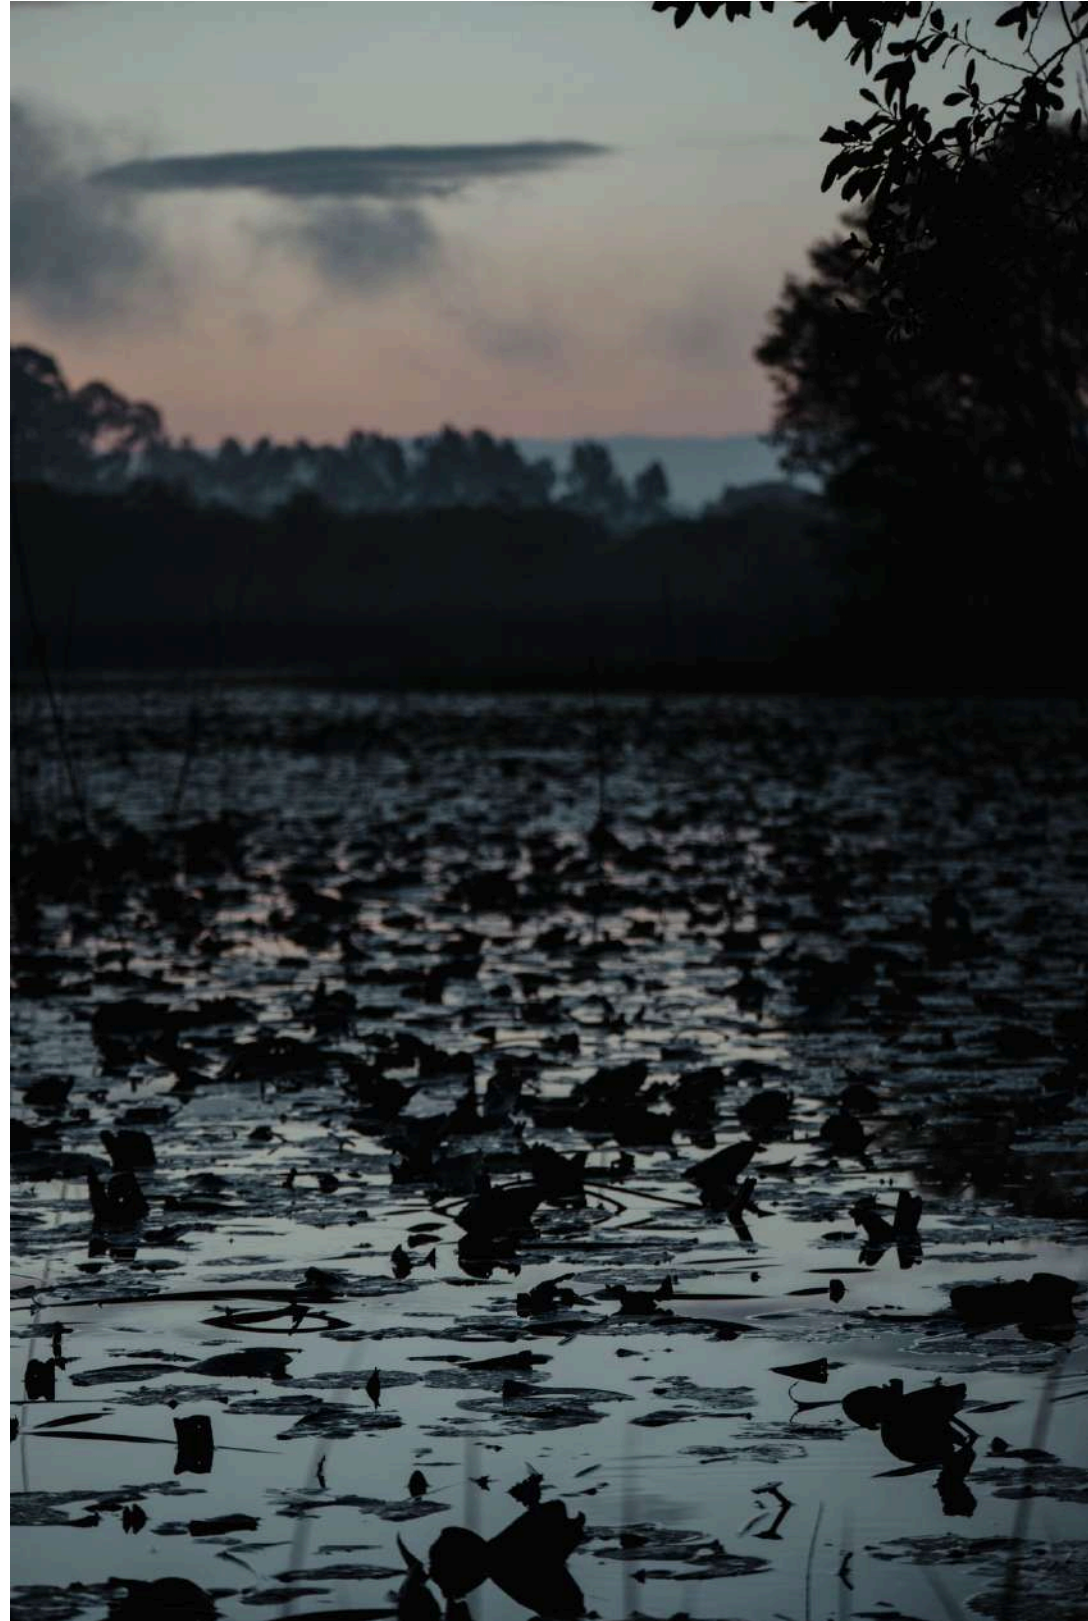

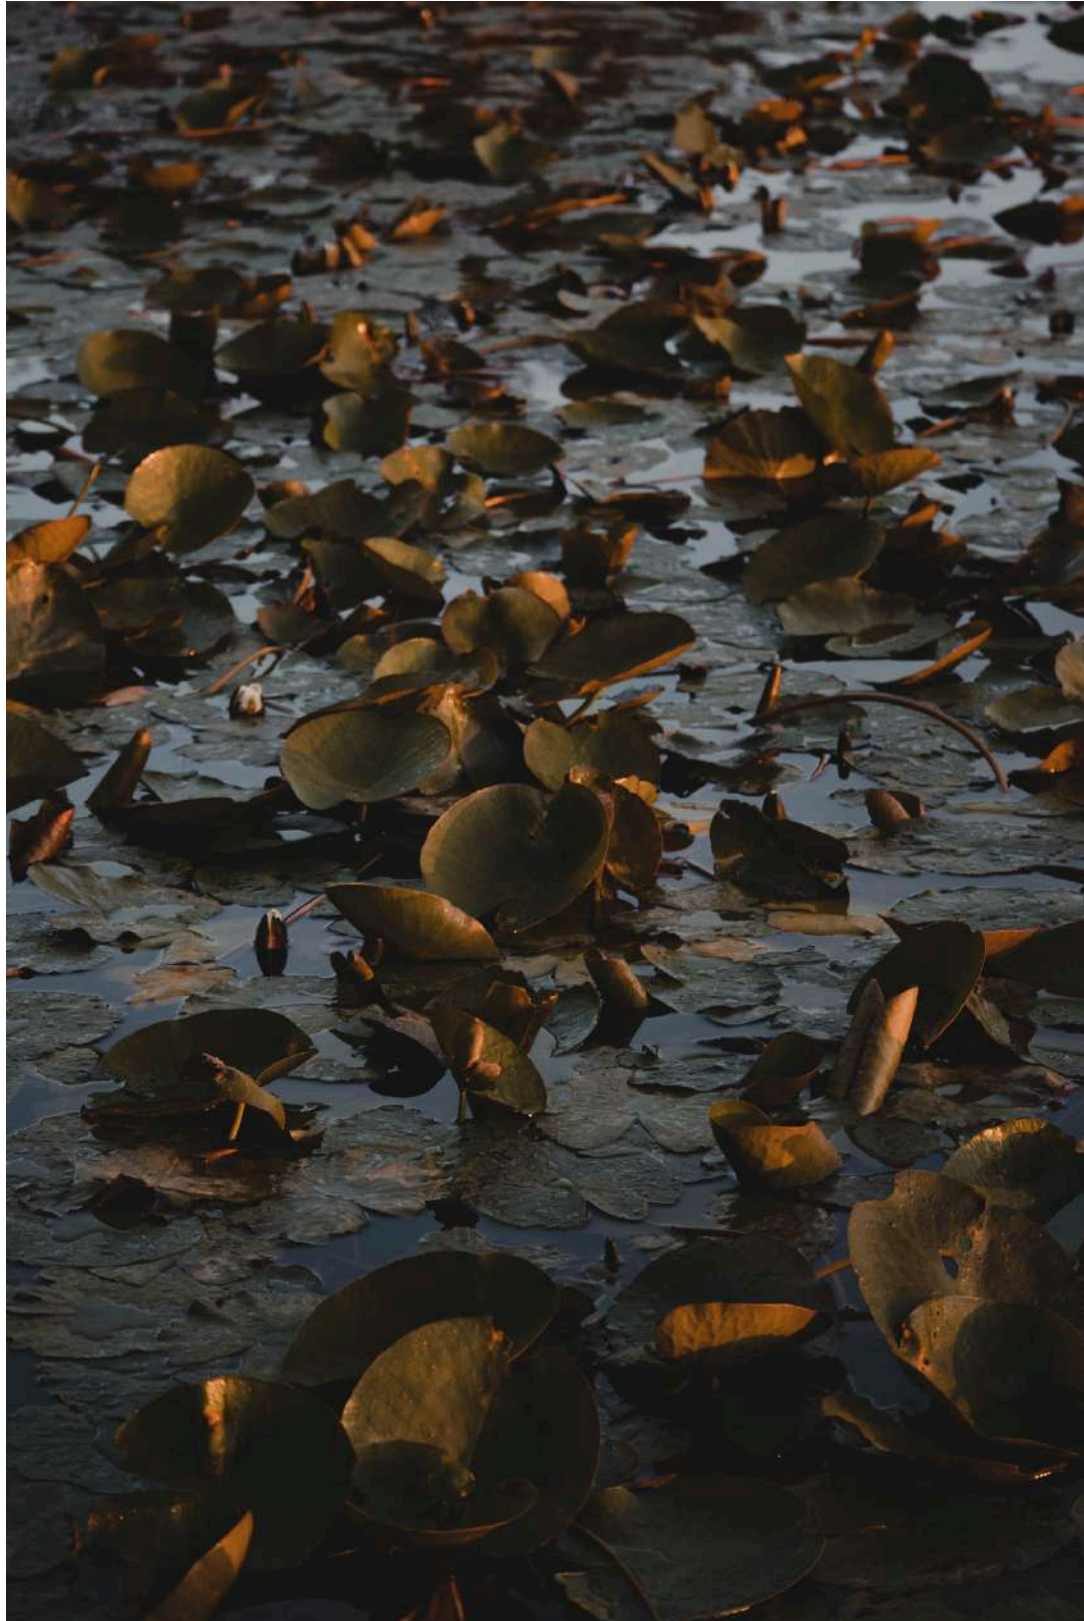

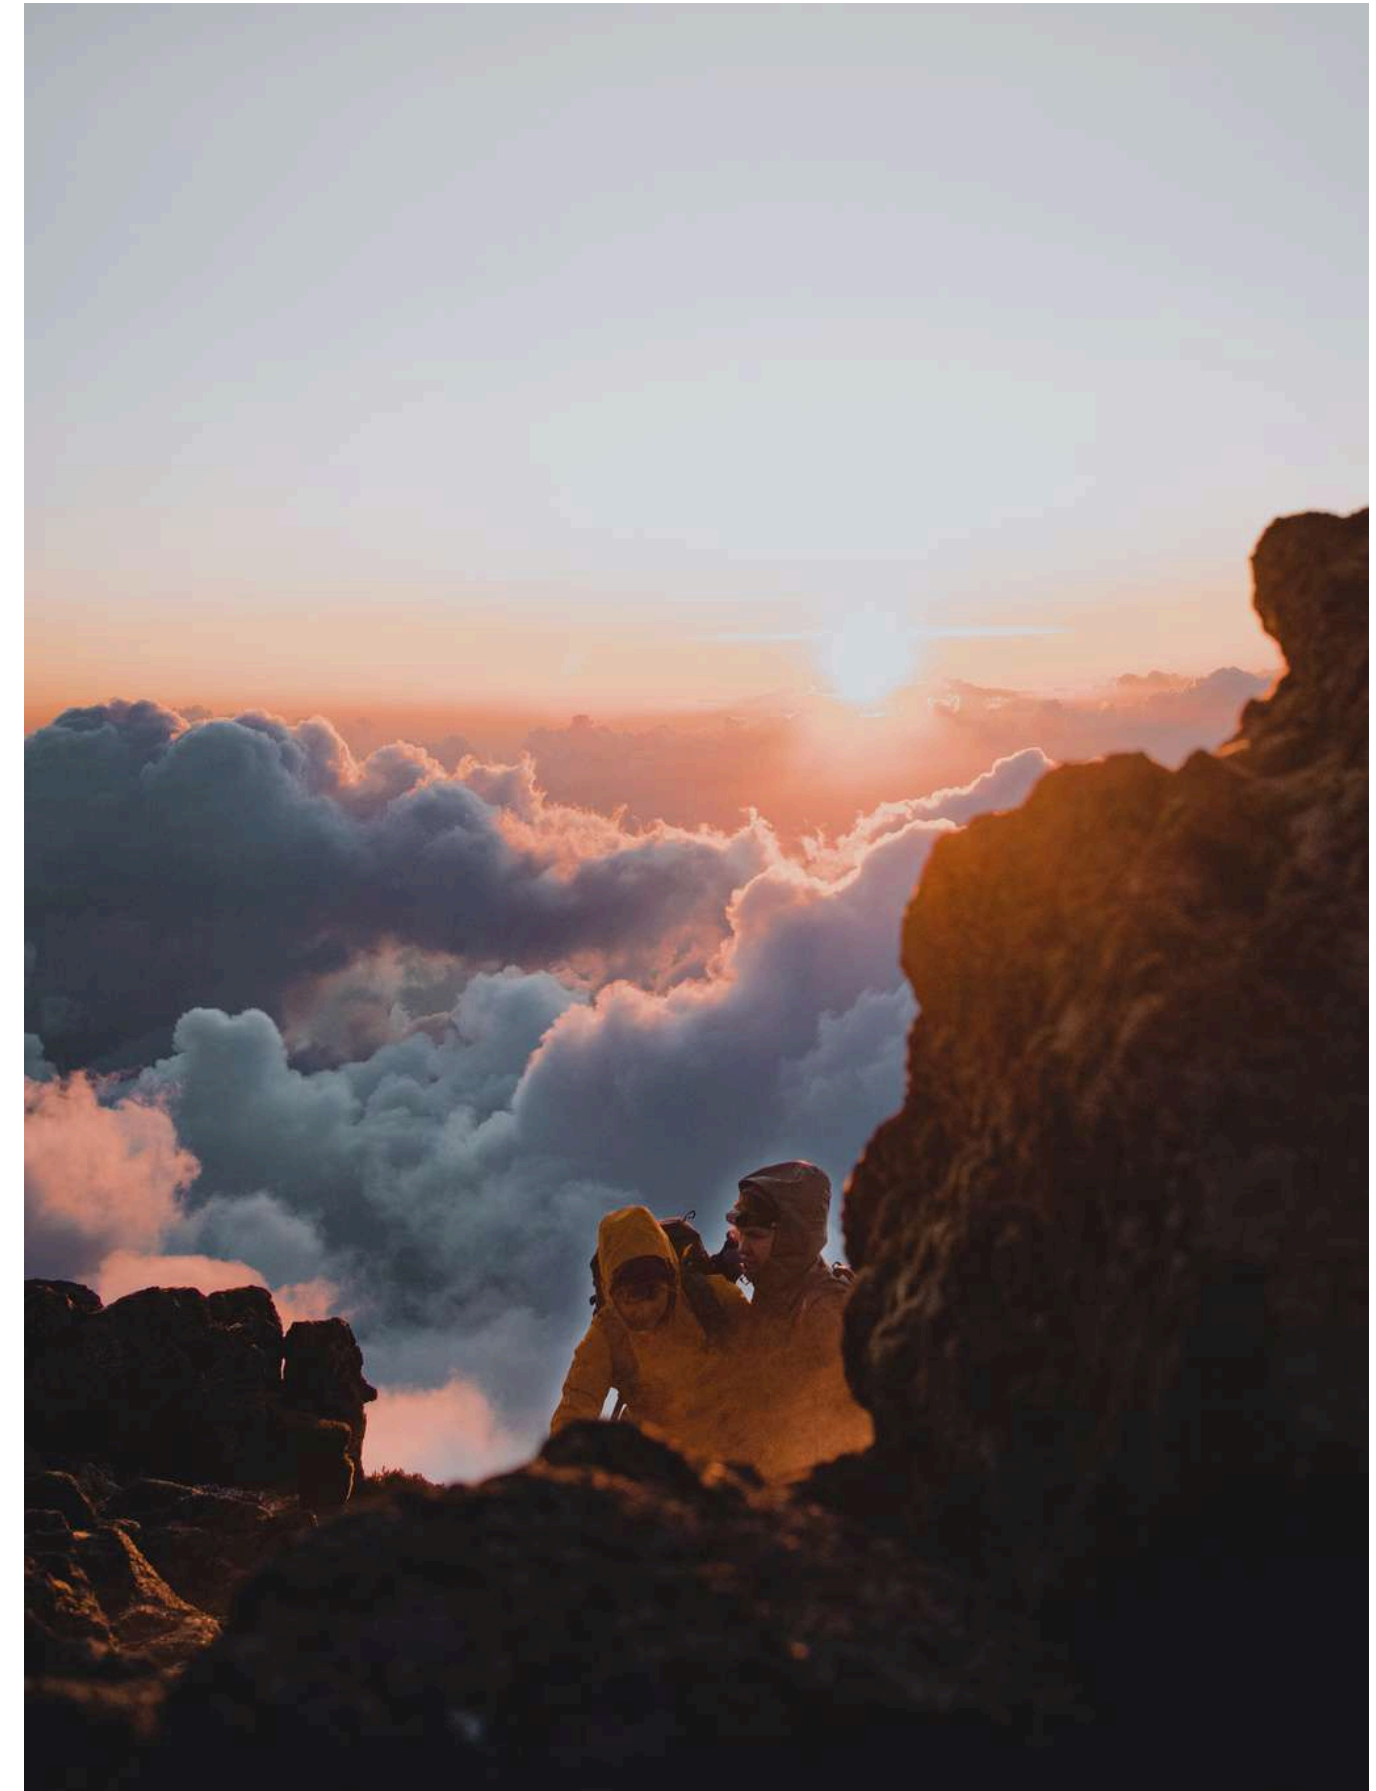

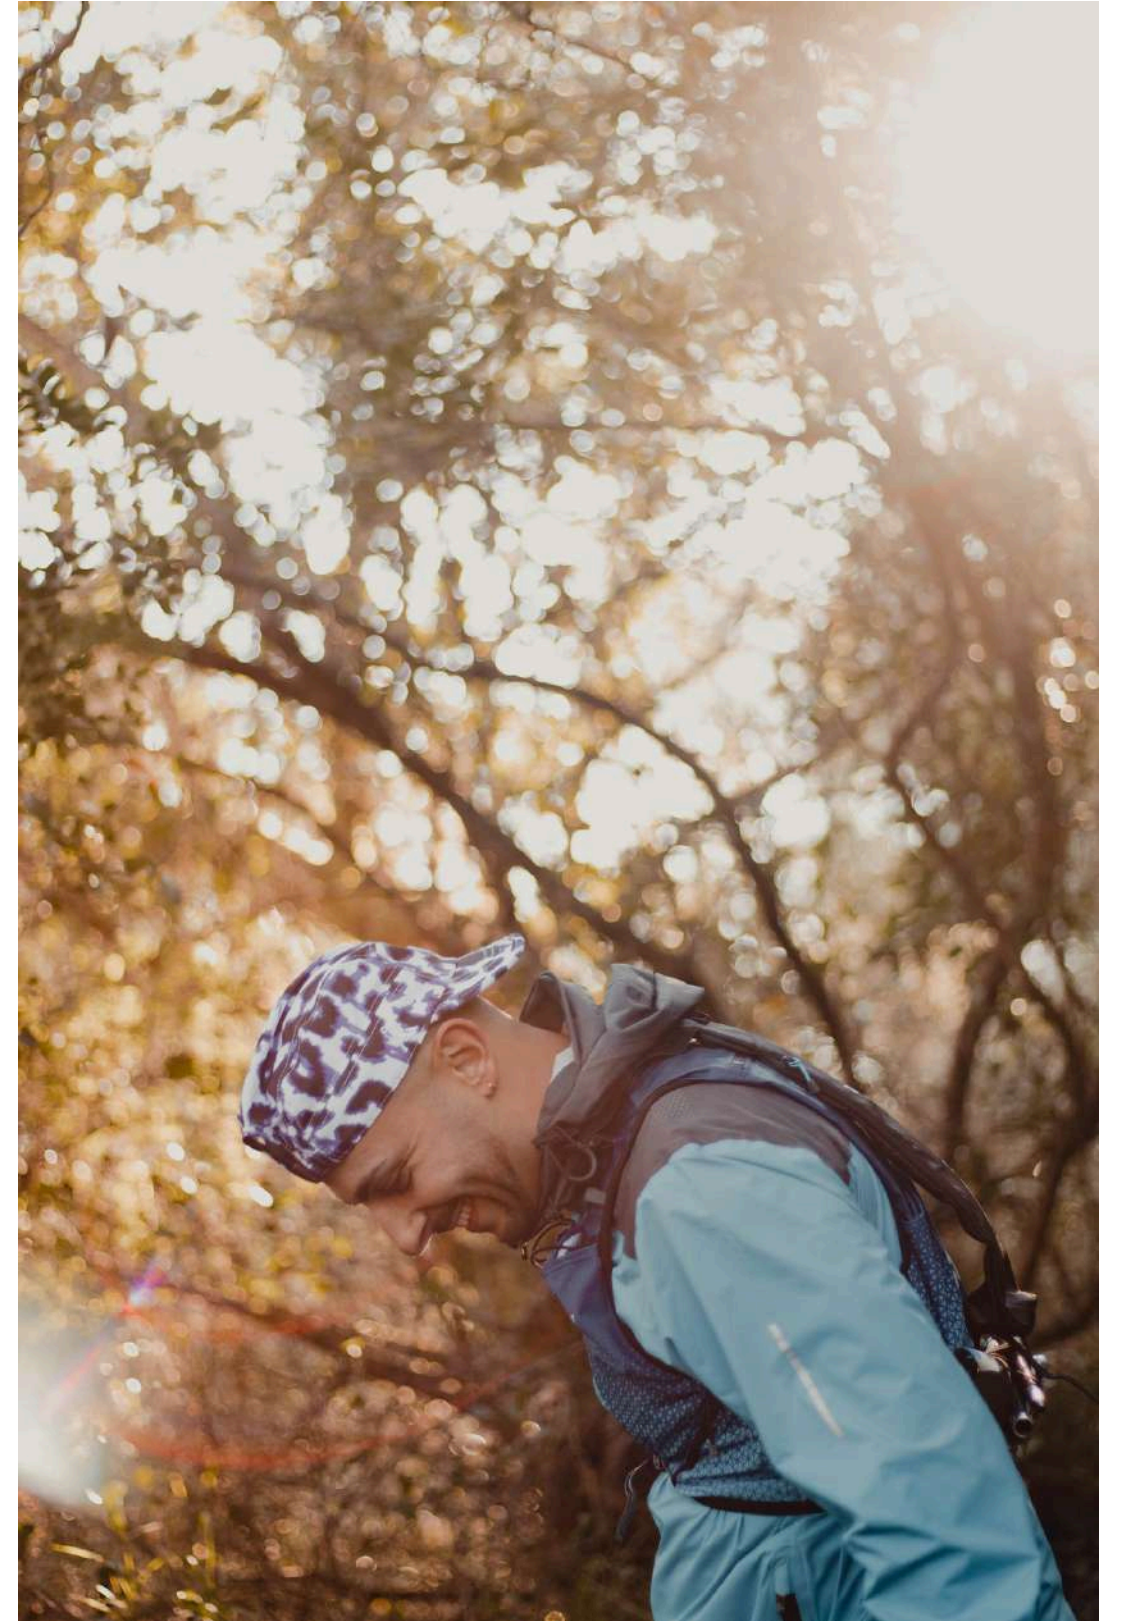

Adventure

Since I was a kid, extreme sports have been present, from skateboarding to climbing, and being born and raised in Nazaré gave me a full-time connection to the ocean and with it bodyboarding and surfing.

In 2012 I just graduated in Architecture, and after that, I worked and lived in Italy, China, and Kazakhstan.

After returning in 2019 to Portugal I decided not to have a full-time job and be indoors all week again, so I took my childhood passion and started photographing again.

So now I see myself as a full-time photographer who loves new challenges no matter where or when.

Award 2024

Great Winner with Best Photography

Geoparque Oeste & National Geographic Portugal

Main Sponsors

Brands

Certifications

RNAAT N.º 314/2024
